- Team Work
- Data Entry Software
- Project Leadership

Professional Summary

I am a Mechatronics engineering student versed in reviewing plans, writing reports, researching solutions, and implementing company procedures. I strongly possess the willingness to learn, follow instructions and work cooperatively within team environments. My computer competencies include MS office applications and programming (HTML, CSS, JAVASCRIPT, REACT/NEXTJS, DJANGO, C++). I'm focused on learning from senior engineering professionals and making positive contributions to the design, development, and completion processes. I am eager to build a long-term career in the field. I am a reliable employee seeking this position. Offering excellent communication and good judgment.

Work Experience

04/2021 - 03/2022

Emma-Tob Technologies Limited

- Work closely with engineers and assisted with the testing of products.
- Monitored and processed information for regulatory compliance.
- Studied manufacturing processes to improve overall knowledge.
- Interfaced with the project management team to prepare engineering submittals and work plans
- Developed technical skills through training and shadowing experienced professionals.
